[mlpoornakala@gmail.com](mailto:mlpoornakala@gmail.com) | [Linkedin](#) | [GitHub](#) | [Credly](#) | Chicago, IL | +1 (312) 285-9219

## EDUCATION

---

**Master of Science in Computer Science, GPA - 3.375** December 2025  
Illinois Institute of Technology, Chicago, IL

**Bachelor of Technology in Computer Science (AI & IPA Specialization), GPA - 3.8** April 2023  
KL University, Vijayawada, AP, India

## EXPERIENCE

---

**Programmer Analyst Trainee** | Cognizant Technology Solutions August - October 2022

- Completed structured training in Java, Spring, and Maven, focusing on backend development and enterprise application frameworks.
- Developed and tested Java-based applications using Spring Boot, working on mini-projects that reinforced real-world software development practices.
- Gained hands-on experience with RESTful API development, debugging, and automation with Maven, improving application efficiency.

**Data Science Intern** | Avishkar Tech Solutions June - July 2021

- Assisted a team in preprocessing data and refining machine learning models, leading to a 30% improvement in prediction accuracy.
- Performed exploratory data analysis on five datasets, identifying key insights that contributed to three strategic business recommendations.
- Assisted in deploying ML models on cloud platforms, gaining experience with automation and performance monitoring.
- Designed 10+ effective data visualizations that enhanced analysis and informed decision-making, resulting in increased actionable insights.

**Robotic Process Automation (RPA) Intern** | AICTE October - December 2021

- Gained hands-on experience in Robotic Process Automation (RPA) using Blue Prism, learning to design and deploy automation workflows. Developed process models and error-handling mechanisms, ensuring seamless execution of automation scripts in business applications.

## CERTIFICATIONS

- 
- Microsoft Certified:** Azure (AZ-400) Designing and Implementing Microsoft DevOps Solutions.
  - Oracle Certified:** Oracle Cloud Infrastructure Architect Associate.
  - Aviatrrix Certified:** ACE Multi Cloud Networking Associate.
  - Specialization Certifications:** IBM Data Science, Full-Stack Web Development with React, and Building Cloud Computing Solutions at Scale.

## TECHNICAL SKILLS

- 
- Programming/Query Languages:** C, Java, Python, R, JavaScript, SQL
  - Markup/Stylesheet Languages:** HTML, XML, CSS, XSL
  - Cloud Platforms:** Microsoft Azure, Google Cloud Platform, Oracle Cloud
  - Software:** Automation Anywhere, Blue Prism, Cred CAD
  - IDE Tools:** Eclipse IDE, Visual Studio Code
  - Database:** MySQL, and MongoDB

## PROJECTS

---

**Balancing Diets | Python, Django** 2023

Objective: Implemented using K-means clustering and Decision Trees classification algorithm to analyze and identify nutrient deficiencies in children and adolescents, resulting in a prediction accuracy of 60% and providing tailored nutritional recommendations.

**Food and Hospitality | Java, Spring Boot** 2022

Objective: Developed a web-based application featuring services like food delivery, hotel booking, event planning, and grocery donations, including optimized database interactions that reduced response times by 15%.
